

Topic 003

Test Purpose

Remove the introduction or conclusion text of GPT.

Prompt Used

Design some topics for reading exams. Skip the introduction and conclusion, and only start with the main point.

Direct response

Topic 1: Climate Change and its Impacts

- Rising global temperatures
- Melting polar ice and sea-level rise
- Extreme weather events
- Ocean acidification
- Biodiversity loss
- Mitigation and adaptation strategies

Topic 2: Artificial Intelligence in Healthcare

- AI-assisted diagnostics
- Predictive analytics for disease outbreaks
- Drug discovery and development
- Personalized treatment plans
- Ethical considerations in AI healthcare
- Future possibilities and challenges

Topic 3: The Industrial Revolution 4.0

- Automation and robotics in manufacturing
- Internet of Things (IoT) and smart systems
- Cyber-physical systems and digital twins
- Big data and analytics in decision-making
- Workforce transformations and upskilling
- Socioeconomic implications of Industry 4.0

Topic 4: The History of Ancient Civilizations

- Mesopotamia: Cradle of Civilization
- Ancient Egypt: Pyramids and Pharaohs
- Indus Valley Civilization: Urban Planning and Trade
- Ancient Greece: Democracy and Philosophy
- Roman Empire: Engineering and Governance
- Maya Civilization: Mathematics and Astronomy

Topic 5: Urbanization and Urban Planning

- Urbanization trends and challenges
- Sustainable city design and green spaces
- Transportation infrastructure in cities
- Affordable housing and slum redevelopment
- Smart cities and technology integration
- Public participation in urban planning

Topic 6: The Renaissance and its Impact

- Rediscovery of classical art and knowledge
- Humanism and individualism
- Inventions and scientific discoveries
- Printing press and spread of information
- Influence on art, literature, and culture
- Transition from medieval to modern worldviews

Topic 7: Global Economic Inequality

- Measurement of economic inequality
- Factors contributing to inequality
- Wealth distribution and the role of capitalism
- Effects on social mobility and education
- Policies for reducing economic inequality

- Global perspectives and challenges in addressing inequality

Topic 8: Space Exploration and Colonization

- Early space exploration milestones
- The Apollo moon landings
- Mars exploration missions
- International collaboration in space
- Challenges of long-duration space travel
- Ethics of space colonization and resource extraction

Comments

It generates topics successfully without an introduction or conclusion of GPT, but after I tried several times this prompt,

I found that it still has some probability of showing an introduction or conclusion.
