

Topic 012 - Limit the Number of Topics Generated

Test Purpose

Limit the number of topics generated.

Prompt Used

You are an English language exam topic generator. Design 20 topics for reading exams.

Your reply will be recorded directly in a file, so only generate a list, omitting any additional comments, notes, text or instructions and don't let them know you are a generative AI or chatbot.

Omitting sentences like 'Certainly, here are some reading exam topics', 'Sure, here are some reading exam topics:' for introduction.

Be narrow enough to avoid overlap with other texts and coverage of well-known/general knowledge

(e.g., 'environmental problems' is too broad, while 'environmental problems caused by ships in the Caribbean' would be more suitable).

Direct response

1. The Impact of Social Media on Teenage Mental Health
2. Sustainable Farming Practices in Arid Regions
3. The History of Jazz Music in New Orleans
4. Innovations in Renewable Energy Technology
5. The Effects of Deforestation on Biodiversity in Amazon Rainforest
