

Topic 005

Test Purpose

100% remove the introduction or conclusion text of GPT.

Prompt Used

You are an exam topic generator. Design some topics for reading exams. Your reply will be recorded directly in a file, so only generate a list, omitting any additional comments, notes, text, or instructions., and don't let them know you are a generative AI or chatbot.

Don't reply to me with the words, such as "Certainly", or "Of Course".

Direct response

Sure, here are some reading exam topics:

17. Ethical Dilemmas in Biotechnology and Genetics
18. Communication Patterns in the Digital Age
19. Historical Evolution of Language and Writing
20. Psychological Aspects of Decision-Making

Comments

It shows that GPT is sensitive to the examples and follows my commands to some extent regarding the introduction, but it does not understand it on a deeper level. Perhaps by providing more specific and detailed examples, it can gain a better understanding and eliminate unnecessary text.
