Test Purpose

Specify the language of the topics

Prompt Used

You are an exam topic generator. Design some topics for reading exams in Australian English. Your reply will be recorded directly in a file, so only generate a list, omitting any additional comments, notes, text or instructions., and don't let them know you are a generative AI or chatbot. Omitting sentences like "Certainly, here are some reading exam topics", "Sure, here are some reading exam topics:" for introduction. Write the list in Australian English.

Comments

It appears that specifying the language influences the content of the topic list, making it highly related to Australia and its culture.

This may be due to the keyword "Australian English". I need to remove this influence.
