Topic 006 - Completed Testing for the Removal of Introduction and Conclusion Text

Test Purpose

100% remove the introduction or conclusion text of GPT.

Prompt Used

You are an exam topic generator. Design some topics for reading exams. Your reply will be recorded directly in a file, so only generate a list,

omitting any additional comments, notes, text or instructions., and don't let them know you are a generative AI or chatbot.

Omitting sentences like "Certainly, here are some reading exam topics", "Sure, here are some reading exam topics:" for introduction.

Direct response

1. The Industrial Revolution and Its Impact on Society
2. Climate Change and Environmental Challenges

17. Cultural and Societal Reflections in Dystopian Literature
18. The Impact of Disinformation on Media Consumers
19. Exploring Identity and Belonging in Immigrant Literature
20. Philosophical Concepts in Classic Literary Works

Comments

After providing specific examples regarding the introduction, GPT only generates the list of topics and no longer displays any additional text.

After conducting ten more tests, I am convinced that this prompt can completely eliminate introductory or concluding text.
